

engineered to perfection.

The engineers who design OKI® printers also develop the quality products that go with them. They're the perfect match - and the best way to protect your investment in our machines. OKI toner cartridges contain high-grade, micro-fine particles for the best print quality. They also have a special lock-in design for "clean hands" loading. Our ribbons consistently turn out millions of brilliant black or color characters. OKI consumables are also priced to keep operating costs low, which is exactly the kind of value you expect from us. Keep your business looking great. Call 1-800-OKIDATA (654-3282) if you have any questions. Trust us to give you the right answers - and the right products.
